

NovaTech ProMax X1 Laptop - Warranty & Service Manual 2024

Section 1: Standard Warranty Coverage

The NovaTech ProMax X1 laptop comes with a 3-year standard limited warranty from the date of purchase as shown on the original invoice. The warranty covers defects in materials and workmanship under normal use conditions. Components covered include the motherboard, RAM, SSD storage, display panel, keyboard, trackpad, battery, and all internal hardware. The warranty is non-transferable and applies only to the original purchaser. Proof of purchase must be presented for all warranty claims.

Section 2: Battery Warranty

The battery is covered under a separate 1-year warranty from the date of purchase. Battery degradation to below 80% of original capacity within the first year qualifies for a free replacement. After the first year, battery replacement is available at a discounted service rate of INR 4,500 inclusive of labour. The battery warranty is void if the laptop is found to have been charged using third-party non-NovaTech certified chargers. Use only the NovaTech 65W USB-C charger (Model NC-65W) for optimal battery health.

Section 3: Accidental Damage Protection (ADP)

Accidental Damage Protection is available as an optional paid add-on at INR 8,999 for a 2-year plan or INR 14,999 for a 3-year plan, purchased within 30 days of the laptop purchase. ADP covers a single incident of accidental liquid damage and a single incident of accidental screen damage per year. Each claim under ADP requires payment of a service deductible of INR 1,500. ADP does not cover theft, loss, cosmetic damage such as scratches or dents, or damage resulting from intentional misuse. ADP claims must be filed within 48 hours of the incident.

Section 4: Warranty Exclusions

The following are explicitly NOT covered under any warranty plan: physical damage caused by dropping or impact, liquid damage without ADP coverage, damage caused by using incompatible accessories or chargers, software issues including operating system failures and virus infections, damage caused by unauthorized repairs or modifications, normal wear and tear including keyboard key fading, cosmetic scratches, and hinge wear, consumables such as stylus tips and cleaning kits, and damage caused by power surges or improper electrical supply. Warranty is void if the serial number label is removed or tampered with.
